\*denotes urgent need

### **Possible Eagle Scout projects:**

- Handicap bathroom – a 10x 14 Handi House will make a great start. We propose a system that can be cleaned by the port-a– jon companies
- Shavings barn – to keep the horse bedding clean and dry. If we can get this built a lumber company will donate shavings ( bedding ) which will save the center over 1800.00 a year
- Run in shed – for horses in field to get out of the rain during bad weather when no one is at the center to bring them into cover
- Handicap roundpen training access – for wheel chair bound folks to do round pen training with horses ( this is made of concrete; pictures are on file)
- Fence and arena projects available
- Handicap access walkway project
- Handicap ramp projects
